**WANTED** Agents. to solicit orders for our . . .

**PARAGON SCHOOL MAPS,** and to employ other agents for like service on commission.

C. R. TALCOTT, 858 Dearborn St., Chicago, Ill.

**NOTE.**—These are the most accurate maps that are published. Their coloring and contrasts are superb. The outlines of every physical feature of land and water are sharply and clearly defined. Places of historic importance and all large cities are represented by colored spots of varying size, according to population. Capitals are indicated by squares, so that they are certain to be quickly learned. Our maps are so complete as to be adapted for use in connection with any text book on geography; still they are less encumbered with unimportant details than any other maps in the market, and this fact has won special favor from teachers.

# BOOK BINDING.
